Beryl's®

At Beryl's it's all about delivering the best chocolates in Malaysia.

Ensuring that our chocolates retain the same great taste every time, we use only the very best ingredients. These include beans from Ghana, a globally recognized source of the very best cocoa beans. Our other ingredients receive the same care and attention to detail.

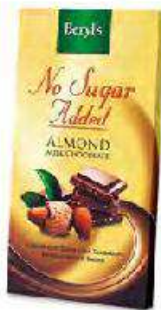

But the best materials are only one piece of the puzzle. To ensure that the taste of Beryl's Chocolates is distinct and of the same high quality every time, we constantly research and develop new manufacturing methods and products. After all, variety is the spice of life, isn't it?

To that end, Beryl's Chocolate today offers more than 100 varieties of chocolate to suit your every mood and desire. That's a list that is growing constantly by the way!

FERRERO ROCHER

Over the years, the Ferrero Company has flourished by following the principles of its founder, Pietro Ferrero. Like Rocher® chocolates, every Ferrero Company brand is an original concept, anticipating consumer demand for superior quality, taste, and presentation at affordable prices. Today, Ferrero products are delivered to delighted consumers around the globe from state-of-the-art facilities throughout Europe as well as North America, Australia, and South America. Born from a simple dream, Ferrero has become the world's third largest confectionery company.

MASTER CHOCOLATIER
SINCE 1845

THE LINDT MASTER CHOCOLATIER
SECRET OF CHOCOLATE

Creating premium chocolate is an art that requires great skill, dedication and passion, and the LINDT MASTER CHOCOLATIERS are masters of this craft.

The LINDT MASTER CHOCOLATIERS develop and refine our unique secret recipes with absolute devotion. The trademark LINDT is the guarantee for premium chocolate of distinct smoothness, characteristic taste and innovative flair. Every single piece is created with unmatched passion for high-quality chocolate. It's a tradition the LINDT MASTER CHOCOLATIERS have carried on since 1845.

FERRERO

The first version of what would become the revolutionary invention of the century and what is now one of the most famous food specialities in the world – NUTELLA– was founded in a backroom of the pastry shop founded in Alba in 1944 by Pietro Ferrero. Since then, NUTELLA continues to inspire and satisfy the palate of the entire world: from the United States to Europe, Australia to Canada, its unique taste and its distinctive jar appeal to consumers of all generations. Thanks to its inimitable recipe and its genuine and carefully selected ingredients, NUTELLA, spread on bread, makes more enjoyable your breakfast ritual.

Loacker

PURE GOODNESS

There's a place in the heart of the Alps, where the air and water are fresh and pure. At an altitude of over 3,000 feet, surrounded by the Dolomite Mountains, the Loacker family selects only the best and finest natural ingredients from around the world: the best Italian hazelnuts, natural Bourbon vanilla pods, pure chocolate, the highest quality milk and fresh mountain water.

This pure goodness goes into creating all our delicious flavored-wafer and chocolate specialties, as it has since 1925. No matter which you choose from our family of snacks, you have the quality made famous by the Loacker family in every bite.

Natural

Loacker uses only natural, specially selected and high quality raw materials. Everything contained in a Loacker package is in its natural state with no additives. In addition, the technology employed is also the latest: the wrappers are, for example, 100% recyclable.

Delicious

Clear mountain water, non-hydrogenated coconut oil, the fine chocolate, the specially selected hazelnuts from Naples or the authentic vanilla pods from the Bourbon islands are only some of the ingredients that melt delicately in your mouth when you taste a Loacker product. A sensation of hand-made delights is common to all Loacker products: from

Walkers

— ESTABLISHED 1898 —

Walkers bakes the world's finest shortbread. Our wide range of shortbread, traditional cookies, cakes, oatcakes and puddings can now be found in over 80 countries. Walkers products contain no artificial flavorings, colorings or additives.

Walkers was founded in 1898 and is now the leading brand of food exported from Scotland. It remains to this day a family-owned and managed business. In 1898 our great grandfather, Joseph Walker started out with the mission... "To bake the world's finest shortbread".

To this day we carry forward this tradition of baking the finest shortbreads, biscuits, cakes and oatcakes, using our founder's original recipes.

The Italian Fine Pastry

Discover our delicious world, full of refined pastries and sweet specialities. For more than 100 years, Vicenzi has been synonymous with the quality and tradition of the art of Italian confectionery.

A Vocation for Quality

Vicenzi has always been a company that strives for excellence, for this reason, it has implemented strict internal and external production controls to obtain international recognition and Quality System certification. With the foundation of the Vicenzi Group in December 2005, the Research and Development department was transferred to the Bovolone factory: this department is dedicated to researching the application of new ingredients and developing new products or technologies, such as the shelf life extension of all snacks and bread products, or the expansion of the "All Natural" product range, preservative-free, artificial colouring and flavouring-free and no OGM.

“Beverage”

UNIVERSAL FOOD PUBLIC COMPANY LIMITED, or more commonly known as UFC, is one of Thailand's leading processor, manufacturer and distributor of processed fruits and vegetables, beverages and sauce and seasoning. UFC was founded in October 1969, recognising Thailand as a key producer for a wide range of agricultural products for the world market. It is with this conviction that UFC made its decision to invest its business in fruits and vegetable development.

The commitment in supplying the world with fruit and vegetable from Thailand also allowed UFC to contribute in creating a much-needed employment in the rural community.

Ceres Fruit Juices Pty Ltd is a company based in South Africa. It produces fruit juice and other fruit based products. Ceres advertises their products being made from 100% fruit juice without preservatives. They are manufactured using aseptic processing. The products are widely sold in Africa and imported to many areas including North America, Europe, and Asia. The United States is one of their largest markets.

The company is named after the town of Ceres in the Western Cape, South Africa where it was first founded in 1986. The Ceres valley is an important fruit growing region in southern Africa, particularly for apples, pears and stone fruits.

NEW SEVEGEP is a leading European manufacturer of fruit juices, canned fruits, concentrates and related by-products. The company was founded in 1972 in the form of an organized co-operative.

Having become well established internationally NEW SEVEGEP undertook a programme of expansion involving technological and quality improvement in every stage of production, from raw materials to finished products. As a result, in May 2004, the company achieved the HACCP (Food Safety Management), the most widely recognized international certificate.

UNIVERSAL FOOD PUBLIC COMPANY LIMITED, or more commonly known as UFC, is one of Thailand's leading processor, manufacturer and distributor of processed fruits and vegetables, beverages and sauce and seasoning. UFC was founded in October 1969, recognising Thailand as a key producer for a wide range of agricultural products for the world market. It is with this conviction that UFC made its decision to invest its business in fruits and vegetable development.

The commitment in supplying the world with fruit and vegetable from Thailand also allowed UFC to contribute in creating a much-needed employment in the rural community.

In 1929, Nestlé was challenged to help preserve the surplus coffee beans in Brazil that resulted from the Wall Street Crash. And Nestlé accepted the challenge.

Our coffee specialist, Max Morgenthau, was on a mission to create a delicious cup of coffee simply by adding water. Max and his team worked hard to find a new way to make instant coffee that would retain the coffee's natural flavour. In 1938, they found the answer, and NESCAFÉ was born. Named by using the first three letters in Nestlé and suffixing it with 'café', NESCAFÉ became the new name in coffee.

San Remo has epitomised the culture and tradition of pasta making in Australia since its inception in 1936, when it was founded by Luigi Crotti. Today, it remains a privately owned 100% Australian company.

From its earliest days the company grew rapidly and was the first manufacturer to support and foster supermarket distribution as this new shopping phenomenon became established and grew.

In 1921 the historic mill of Coccolia (in the Italian province of Ravenna), dating back to 1445, became the property of the Spadoni family. The mill evolved over three Spadoni generations – Livio first, then Libero and Leonardo today – implementing over time a diversification policy and interpreting new food styles and the needs of modern consumers.

Cooking as Italians do!

We process the best potatoes in our food production line, all over the world (five factory locations: the Netherlands, Belgium, Poland, Egypt)! Fresh from the field. Plenty of taste. Just like it should be. Because this is the only way to produce the best fries and potato specialties. Naturally, we strive to do this in a sustainable way, with respect for humans and environment. More than 1.500 Farm Frites specialists are committed to this cause on a daily basis. You can see and taste this. Discover our product portfolio and give your guests a hint of the 'fresh taste of the field' too...they will surely want to taste more!

DAESANG GROUP was founded in 1956 in South Korea and has since grown to become one of the largest fermentation companies and one of the world's leading producers of consumer food products. Since 1973, Daesang has continuously expanded into other countries worldwide. Daesang boasts about 40 sales and manufacturing subsidiaries in South Korea, United States, Europe, Japan, Hong Kong, China, Indonesia, and Vietnam. Today, Daesang Group's sales reach approximately \$ 2 billion US dollars per year globally.

Daesang is proud to be one of the world's leading food companies, offering delicious assortment of consumer food products. In addition to our renowned food brands, Daesang's business interests include information technology, marketing communications, and we operate our own highly effective non profit educational foundation.

JFC's mission is to increase the distribution of foods from Japan and the rest of Asia. Building on a century of success, JFC today is strategically poised for growth. Every day, we serve growing numbers of Asian-American retail outlets, restaurants, and major North American retailers. And every day, we deliver healthy, safe, high-quality Asian food products across the continent from our strategically located distribution centers.

“Dairy & Pastry”

We would like to share our story of goodness from grass to glass with you. Our Anchor Brand comes from New Zealand, a source of pure goodness.

Today, thanks to over 134 years of good 'old dairy know-how, modern innovation and ingenuity, the goodness of Anchor is available in over 160 products and 80 countries. Our products are made with the goodness of dairy, whether it's milk, yoghurt or cheese. Nature's way of helping you start strong and go strong daily. We believe that goodness feeds greatness.

Create Lasting Memories®

As a Belgian family-owned company that has been established in the Philippines since 1999, we develop an extensive list of products that perfectly fit the needs of Pastry Chefs, Bakers, and Chocolatiers around the world. We provide fine high-quality products that we like to divide into four main categories such as Fruits, Sugars, Nuts, and Chocolates. In order to create the finest products on the market, we must use the finest grades of ingredients in our preparations. This is why we source our ingredients straight from carefully selected farms, such as Cherries from France, Blueberries from Canada, Cocoa Beans from Ghana or Ecuador, and even Black Bourbon Vanilla from Madagascar. Our experience and heritage has led us to create exquisite products made from the finest raw materials and based on the strong craftsmanship and ancestral production processes fine-tuned by our fellow Belgian artisans, right here, in the heart of Asia.

For generation after generation, the Dr. Oetker brand has signalled to the consumer that Dr. Oetker products have outstanding taste, are the highest quality and guarantee success. By concentrating the product attributes in one signal, the trademark is an aid in the consumer's decision to buy.

The Dr. Oetker brand has invariably kept its promises. Consumers' expectations have never been disappointed, and constantly changing needs are satisfied anew time and time again. Almost all consumers – the figure in Germany is around 97 per cent – know the brand and place immense trust in it. Independent and representative surveys have repeatedly shown that Dr. Oetker occupies a top position among German food brands and also ranks among the most trusted food brands internationally.

Ehrmann

Ehrmann LACTO Zero products are delicious and creamy and are the right choice for people who should avoid lactose, but don't want to miss out on tasty productions. But also if you are interested in a balanced diet, then LACTOZero is a great option, because it's not only lactose free (< 0,1% lactose) and gluten-free, but it is also an important source of calcium.

The Isigny region used to be one of Europe's largest wetlands until the sea retreated in the sixteenth century. It left behind a clay soil with rich alluvial sediments, upon which green grass grows abundantly. For centuries, the region's dairy farmers have produced exceptionally fine milk, earning a well-established reputation for quality.

In fact, thanks to the salty seawater of the Channel, combined with fresh water from the Cotentin peninsula and the Bessin marshes, the region's climate is mild and damp. The cows which graze these pastures are eating grass which makes their milk rich in mineral salts and trace elements.

For making the rich taste of cocoa accessible to everyone to the patent they claimed for the vertical cocoa press: the Van Houten Family sparked nothing less than a revolution - one of a kind, true in its kind. Their innovative Dutching process created the lovely, full-bodied, chocolatey taste of cocoa we still enjoy today. Today still, Van Houten is the best that goes farthest.

Australian Meat

The Midfield Group is a multi-faceted meat processing company built on solid farming foundations and embracing the values of life on the land.

It was the core values of life on the land, an eye for livestock and faith in the fertile farmland of south-west Victoria which prompted Midfield founder Colin McKenna to enter into an arrangement with a local abattoir to process his livestock and offer it for sale in Melbourne in 1975.

This original arrangement proved fruitful and when the opportunity arose to purchase the municipal abattoir in 1988, Colin took a punt on the business.

Australian Meat Group

Our Range is "The highest quality meat products for local and international markets."

Proudly producing the highest quality meat products for local and international markets. The Australian Meat Group executive management team has a wealth of experience in the agribusiness and the meat industry and are dedicated to delivering excellence throughout all facets of the business.

Our vision was to build a state-of-the-art meat processing infrastructure that produces the highest quality meat products for local and international markets. AMG abattoirs and facilities house the highest levels of hygiene and safe food handling. Efficiency, humane processing and work force health and safety attributes.

Australians clean and green disease-free status coupled with full traceability of tagged livestock has given Australian meat a strong, competitive advantage on the world stage. At AMG we build on this by only sourcing premium stock from Australia's richest grazing country. We maintain excellent relationships with the very best suppliers, both at the farm gate and at livestock markets.

NEW ZEALAND BEEF

Premium Quality New Zealand Beef, Lamb, and Pork

With a proud history that can be traced back to 1873, the Wilson Hellaby brand represents a long tradition of quality, innovation and service. Our focus is on sourcing the highest quality PRIME livestock from family farmers across New Zealand. Under the supervision of food safety inspectors, along with independent vets, our dedicated staff use both traditional hand cutting techniques and modern processing innovations to deliver premium meat to customers in New Zealand and around the world.

Italian Cold Cut

Discovered Cured Meats From The Raspini Famiglia From Piedmont, Italy.

We import cured meats and salami from Raspini, a family that have been curing meats since 1946, on the green slopes of Moviso, in the Piedmont Province.

All Raspini tray products carry the label humanely-raised which refers to pigs that are raised on family farms in an environment that promote their natural behaviour and socialisation. From birth to harvest, the highest animal welfare standards are applied. You can read more on their website.

Raspini prides itself on safety, freshness and quality in its craftsmanship.

FRENCH *Oyster*

Oysters: the apotheosis of taste

The height of taste has its sanctuary in a mythical place: Brittany (France) where there is the flat and rock oysters farming. The inimitable taste of the famous Beløn oysters has been appreciated for ages. In the south of Brittany, the Beløn river flows into the Atlantic Ocean; it is in this union between river freshwater and salty seawater that delicious shellfish are grown and farmed. Jacques Cadoret and his son Jean-Jacques - faithful to a tradition handed down for 5 generations – farm oysters with a great passion and give to the “gourmand” the best gifts of the Ocean.
